Chemicals

Dry Chemicals

Item code: CHEMd1

- Most of the items are available in the following pack sizes: 100gm, 250gm and 500gm

Agar agar
Aluminium powder
Aluminium grit
Aluminium sulphate
Ammonium carbonate
Ammonium chloride
Ammonium dichromate
Ammonium sulphate
Ammonium thiocyanate
Barium chloride
Borax powder
Boric acid
Calcium carbonate chips
Calcium carbonate powder
Calcium chloride
Calcium hydroxide (lime)
Calcium hypochloride
Calcium metal
Calcium nitrate
Calcium sulphate
Charcoal lumps
Chromic acid
Citric acid
Cobalt chloride
Copper ii carbonate
Copper ii chloride
Copper ii nitrate
Copper ii oxide
Copper sulphate
Copper turnings
Eosin
Gelatine powder
Glucose powder
Graphite powder
Iodine crystals
Iron filings
Iron iii chloride (ferric)
Iron ii sulphate (ferrous)
Iron ii sulphide (ferrous)
Iron iii nitrate (ferric)
Iron iii oxide ferrous
Iron powder
lead nitrate
Lithium metal
Magnesium carbonate
Magnesium chloride
Magnesium nitrate
Magnesium oxide
Magnesium powder
Magnesium sulphate
Magnesium ribbon
Manganese dioxide
Manganese sulphate
Mecury ii chloride
Mecury ii oxide (red)
Mecury ii oxide (yellow)
Mercury metal
Naphthalene
Oxalic acid
Pepsin
Phenol crystals
Phenolpthalein
Phosphorous (red)
Potassium aluminium
Potassium bromide
Potassium carbonate
Potassium chloride
Potassium chromate
Potassium dichromate
Potassium hydroxide flakes
Potassium hydroxide pellets
Potassium iodate
Potassium iodide
Potassium metal
Potassium nitrate
Potassium permanganate
Potassium tartrate
Potassium thiocyanate
Silica gel
Silver nitrate
Sodium acetate
Sodium bicarbonate
Sodium bisulphate
Sodium carbonate
Sodium chloride
Sodium citrate
Sodium hydroxide flakes
Sodium hydroxide pellets
Sodium metal
Sodium nitrate

Chemicals

Dry Chemicals cont.

Sodium nitrite
Sodium oxalate
Sodium sulphate
Sodium sulphite
Sodium thiosulphate
Starch
Sudan ii
Sulphur powder
Tartric acid
Tin powder
Zinc carbonate
Zinc chloride
Zinc granular
Zinc nitrate
Zinc oxide
Zinc powder
Zinc sulphate

Liquid Chemicals

Item code: CHEMl1

- Most of the items are available in the following pack sizes: 100ml, 500ml and 2500ml

Acetic acid
Acetone
Ammonium hydroxide
Ammonia solution
Benedicts solution
Biuret solution A
Biuret solution B
Bromine water
Bromothymol blue solution
Chlorine water
Chloroform
Distilled water
Diethyl ether
Eosin solution
Ethanol
Ethyl acetate
FAA solution
Fehlings solution A
Fehlings solution B
Fixative solution
Formalin
Glycerine
Howard ringer solution
Hydrochloric acid
Hydrogen peroxide
Iodine pure solution
Lime water
Methanol
Methylated spirits
Nitric acid
Olive oil
Paraffin liquid
Phenolphthalein solution
Schultz solution
Silver nitrate solution
Sodium hydroxide solution
Sulphuric acid
Universal indicator solution
Xylene
